

Official announcement for increasing the quota of PRO SKI GP

For rider's certification for participating in Pro classes of Jet Ski World Cup 2016, IJSBA does not have any affiliated member in France, so there is no organization which handles and arranges the certification of the French representatives to reach the expected number of riders.

When we got 4 French Pro Ski riders, so the quota is full for France in this class. However, we also got the entry form from Steven Dauliach who is 3 times champion in Pro Ski GP.

To compensate the lack of IJSBA affiliated members in some countries, we will increase the quota for Pro Ski GP to 5 riders for every country, but effective only in year 2016.
